

NEFFLON

Wellness Anytime, Anywhere!

Product Overview

NEFFLON is Nefful's exclusive collection of garments that employ Negative Ion Technology through Tevion fibers. NEFFLON garments are made from Tevion fibers—specially weaved fibers that give all NEFFLON garments these three key features:

- Negative Ion Technology
- Superior Heat Insulation
- Rapid Moisture Permeability

Negative Ions have been studied to have beneficial effects on human health. Tevion fibers in NEFFLON are the warmest out of all fibers. Its special circular knit also wicks away moisture, keeping your skin and garment dry, comfortable and protects you from potential bacteria formation from sweat and moisture.

Benefits

Negative Ions have been observed to help provide these health benefits:

- Improved oxygen and blood circulation
- Relieve minor aches and pains
- Improved concentration levels and awareness
- Maintain constant body temperature

Experience NEFFLON and take advantage of the superior health-enhancing benefits of negative ions.

Award-Winning Innovation

NEFFLON has garnered much praise and recognition for its innovative technology:

- OKOCHI AWARD (highest honor in fiber industry)
- ONSHI INVENTION AWARD (from late Hirohito Emperor of Japan)
- CHEMISTRY TECHNOLOGICAL AWARD (from Chemistry Association of Japan)

Frequently Asked Questions (FAQ)

How do I wash my NEFFLON garments?

Practical and common washing procedures and standards should be followed when washing your NEFFLON garments. A few things to keep in mind about keeping your NEFFLON clean and durable to last you years of remarkable protection and comfort:

1. Use Nature's Clean Laundry Detergent to ensure your NEFFLON is clean and protected. Do not dry-clean or Laundromat.
2. Do not apply bleach or use a n electric dryer or line dry on a metal clothesline. Do not iron.
3. Do not steam clean. Wash in cold to lukewarm water.
