

OPTIBRAIN™

The Best Brain Food for Adults and Kids

Product Overview

Vital organs have vital functions. And nothing can be more important and demanding as the human brain. Responsible for many functions within the body, the brain requires proper nutrition to be in its optimal condition.

OptiBrain™ utilizes break-through technology and all-natural ingredients to provide your brain with nutritional support it needs to function at its optimum level.

OptiBrain™'s proprietary formula and lipid soluble ingredients give OptiBrain™ the capability to pass through the blood brain barrier, helping to quickly deliver nutrients to the brain to help combat harmful health factors that initiate neural decline.

Benefits

- Helps repair brain cells, increase metabolic functions with the brain
- Improves oxygenation to promote memory, focus, and mental clarity
- Detoxifies bodily impurities, improving conditions such as constipation and bad breath
- Increases levels of energy and concentration
- Supports recuperative REM sleep
- Revitalizes neurons and neuron functions

Suggested Dosage

Take on empty stomach.

Adults: Take 2 softgels daily. May be increased to 4-6 softgels based on body weight or specific concerns.

Children under 4 years of age: If below 70 pounds, take 1 softgel every other day; 71-99 pounds, 1 softgel every day; over 100 pounds, same as adults. For maximum effectiveness, take 3-5 days break after 90 days of use, then resume normal dosage schedule.

OPTIBRAIN™

The Best Brain Food for Adults and Kids

General Brain Facts

- The brain makes up 2% of total body weight, but requires 20% of blood and oxygen supply.
- Constant activity occurs in the brain, even as we sleep.
- Disease, poor diet, and insufficient nutrition affects the brain's overall capability to carry out its duties and functions. Many of these factors can affect the blood brain barrier and damage it, making it easier for toxins and other harmful elements to enter the brain.
- The blood brain barrier is a group of tightly packed endothelial cells in the brain that functions as a gate-keeper and maintains a healthy environment for the brain. A healthy barrier prevents most toxins and potentially harmful elements from entering the brain.

Frequently Asked Questions (FAQ)

Who is OptiBrain™ for?

Men, women, and children (age 4 and up) who want to supplement their existing diets to help improve brain functions and overall brain health with natural ingredients. Check the dosage suggestion on this information sheet.

Are the ingredients organic?

Though ingredients in OptiBrain™ are all natural, they are not certified organic. NEFFUL offers several products that include organic ingredients and are marked in the packaging.

Is OptiBrain™ FDA-approved?

Nutritional supplements are not regulated or approved by the U.S. Food and Drug Administration. The statements included herein have not been evaluated by the FDA. However, OptiBrain™ is formulated with consumer safety and health in mind before it was released in the market. Quality ingredients and materials go into the making of all NEFFUL products.

Is it safe to take OptiBrain™ while I'm taking prescribed medication? What about with MarvelCell™

OptiBrain™ has all-natural ingredients that work to improve brain functions. There are no pharmaceutical drugs in OptiBrain™. It is advisable, however, to check with your primary care physician before starting on any supplements, especially if you are already taking prescribed medication to ensure no interference or reactions to your current medication.

OptiBrain™ and MarvelCell™ are formulated to work together, so it is safe to take both supplements as part of your daily routine.
