**Dear distributors:**

We would like to remind all of our Nefful distributors that all distributors are **prohibited** from making any claims for Nefful products which are not supported by facts contained in any official Nefful literature. This shall include, but not be limited to, any claims of the products' medicinal benefits. No claims or representations that the product will cure or heal any medical conditions will be allowed.

Violation of this provision may subject a Distributor to termination of his/her Distributor membership.

Sincerely,

Nefful USA
